ADVISORY TO THE PUBLIC GPA Asks Community to Allow Crews to Continue Restoration Work

(Fadian, Mangilao) - Guam Power Authority (GPA) crews continue working across the island to restore power following the storm.

GPA understands that residents are eager to have service fully restored and appreciates the community's patience during this time. Crews are actively working in multiple areas, and no village or sector is being left out as teams move through the system to safely complete repairs.

GPA also thanks the community for the outpouring of support shown to crews working in villages across the island.

Residents are asked to allow crews to work unimpeded. While crews understand the urgency and concerns, stopping them to ask about restoration timelines delays progress and create safety risks. Allowing crews to continue their work and focus on their tasks at hand while concentrating on repairs will help ensure power is restored as quickly and safely as possible.

GPA will focus on restoring all feeders and restore the Island-Wide Power System (IWPS) at full capacity. GPA line workers and support crews are working day and night for you, your family, and your businesses. GPA remains committed to restoring service and will continue to provide updates as work progresses.

To report downed power lines, contact GPA Trouble Dispatch at (671) 475-1472/73/74 or via direct message on GPA's Facebook or Instagram page. Customers may also email customersfirst@gpagwa.com. Please provide the exact location or address and contact information.

We thank you for your patience and ask for your continued support and cooperation as we work to bring our IWPS back to normal operations as quickly as possible.
